

Author influence — Gunter Kuhnle

175 focal papers · 200 citing · source: OpenAlex

Numbered papers (ranked by citations):

1. Resveratrol Is Absorbed in the Small Intes... (2000) [243 cit.]

4. Epicatechin and Catechin are O-Methylated ... (2000) [197 cit.]

7. Epicatechin and its in vivo metabolite, 3'... (2001) [177 cit.]

10. Contrasting influences of glucuronidation ... (2001) [154 cit.]

13. Diet-induced endogenous formation of nitro... (2007) [140 cit.]

16. Phytoestrogen Content of Foods of Animal O... (2008) [137 cit.]

19. Distribution of [3 H] trans -resveratrol ... (2006) [130 cit.]

22. Phytoestrogen Content of Beverages, Nuts, ... (2008) [109 cit.]

25. The reaction of flavonoid metabolites with... (2006) [94 cit.]

28. Phytoestrogen content of fruits and vegeta... (2009) [86 cit.]

31. Evaluation at scale of microbiome-derived ... (2018) [71 cit.]

34. Determination of Flavanol and Procyanidin ... (2012) [67 cit.]

37. Dietary, lifestyle and clinicopathological... (2012) [60 cit.]

40. Phytoestrogen Content of Cereals and Cerea... (2009) [60 cit.]

2. Intracellular metabolism and bioavailabili... (2009) [241 cit.]

5. Flavonoid Intake in European Adults (18 to ... (2015) [185 cit.]

8. Absorption, tissue distribution and excret... (2006) [172 cit.]

11. Structurally related (-)-epicatechin metab... (2011) [147 cit.]

14. The Metabolism of Dietary Polyphenols and ... (2002) [140 cit.]

17. Re-evaluation of phosphoric acid-phosphate... (2019) [132 cit.]

20. Dietary Intervention Modifies DNA Methylat... (2018) [126 cit.]

23. Epicatechin and its in vivo metabolite, 3'... (2001) [101 cit.]

26. Calcium and α-tocopherol suppress cured-me... (2013) [92 cit.]

29. Oat bran, but not its isolated bioactive β... (2019) [82 cit.]

32. The ultra-processed foods hypothesis: a pr... (2022) [69 cit.]

35. Lack of Prospective Associations between P... (2008) [67 cit.]

38. Carbon and nitrogen isotopic ratios of uri... (2012) [60 cit.]

3. A Central Role for Heme Iron in Colon Carc... (2015) [221 cit.]

6. Human red blood cells at work: identificat... (2012) [178 cit.]

9. Cocoa flavanol intake improves endothelial... (2015) [170 cit.]

12. Effect of processed and red meat on endoge... (2009) [145 cit.]

15. Impact of cocoa flavanol intake on age-dep... (2015) [138 cit.]

18. Dietary intakes and food sources of phytoe... (2012) [131 cit.]

21. Assessment of the dietary intake of total ... (2013) [118 cit.]

24. The effect of haem in red and processed me... (2006) [99 cit.]

27. The reaction of flavanols with nitrous aci... (2005) [90 cit.]

30. Dietary meat, endogenous nitrosation and c... (2007) [82 cit.]

33. Extraction and Quantification of Phytoestr... (2007) [69 cit.]

36. Gut microbiota composition in relation to ... (2020) [63 cit.]

39. The Differential Tissue Distribution of th... (2004) [60 cit.]
